Extreme Server

Rackmount Multimedia Server

LEV-022

Designed to be the ideal multimedia nexus, the Extreme Server enables you to enjoy your entire digital entertainment library. You can view your photos in a cinematic slide show, browse your music collection by cover art, watch internet TV shows or watch and download movies. All this is available from the server or from any of the connected remote consoles.

The tremendous storage space allows storage for hundreds of movies plus thousands of songs and photos. The rackmount design fits into a standard 19" rack, and is readily expandable to allow for even more storage. The front display screen shows the current system status and media information. Front loading hard drive bays let you easily transport your media files. The removable system drive allows for quick and easy maintenance, and the system is available with optional Blu-Ray disc capabilities.
